9 SENSES THAT GO BEYOND LOGICAL SENSES

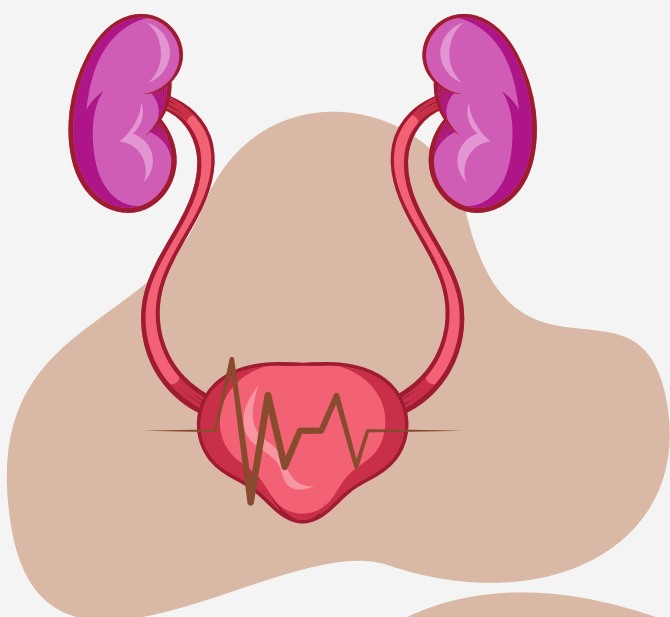

CLAIR AUDIENCE

Hearing voices, words or phrases can sound like having an ear piece in your head.

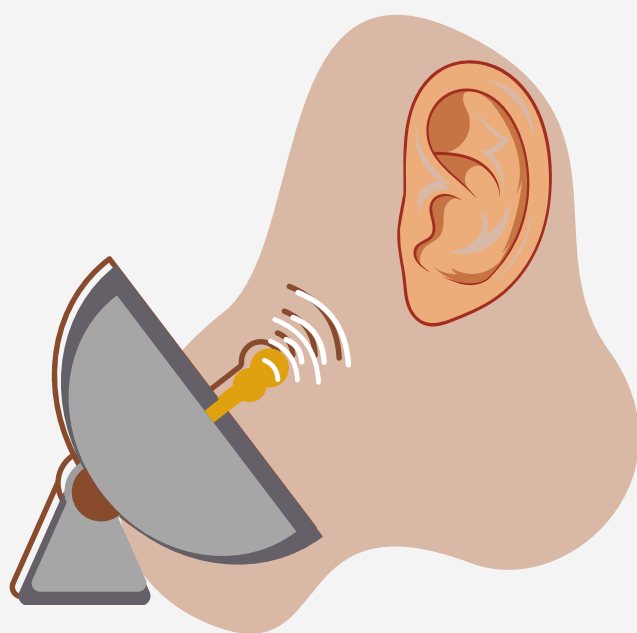

CLAIR INTELLIGENCE

Clear thinking. During conversations new intelligence, thoughts and words seem to just come from nowhere, not from your head or conscious thinking.

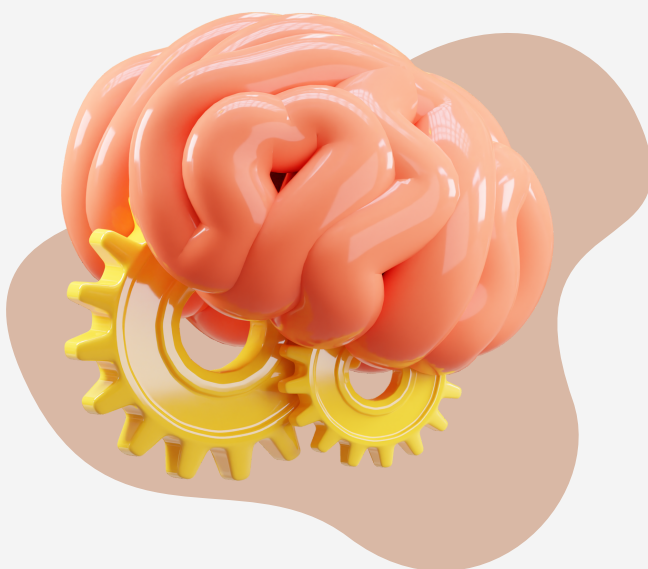

CLAIR VOYANCE

Seeing images or representations of messages. It's receiving pictures in your minds eye that 'come from nowhere'.

CLAIR COGNIZANCE

Having an intense gut feeling or instinctive knowing. It becomes apparent due to it's lack of reasoning for why you 'know it' to be true'.

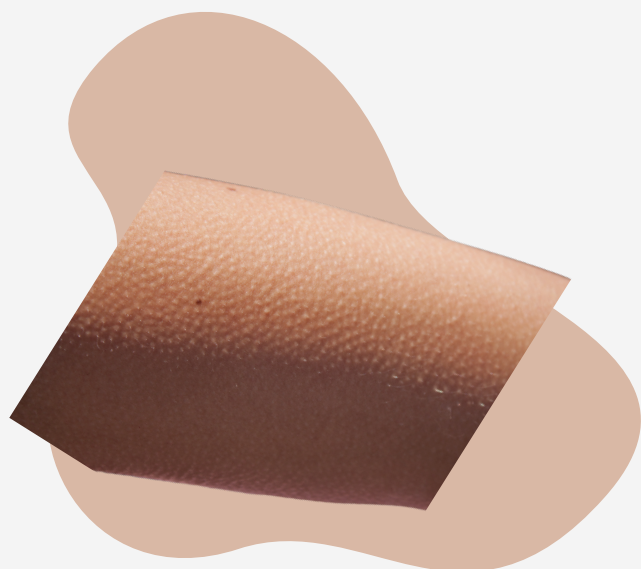

CLAIR EMPATHY

Sensing or recognising the presence of emotional energy. It's an awareness of an emotion such as 'anxiety' but you don't have any reason to be anxious.

9 SENSES THAT GO BEYOND LOGICAL SENSES

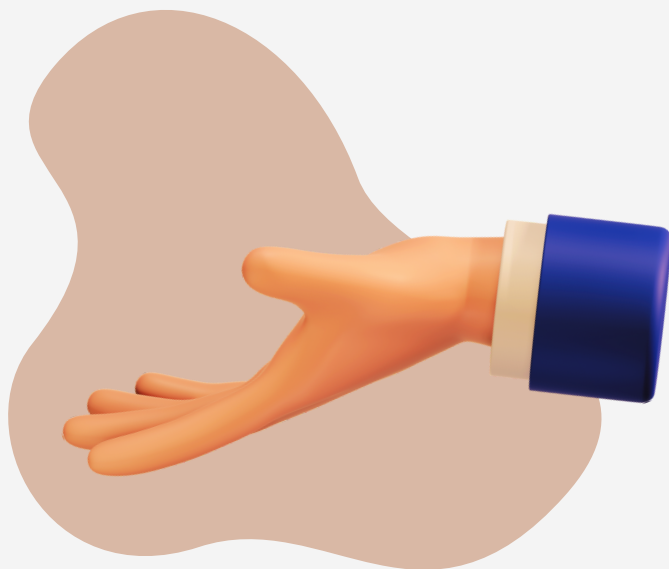

CLAIRSENTIENCE

Feeling something 'on' your body. Common experiences are goose bumps, cold chills, hairs standing up, cobwebs around your head or body, all which seem to be inexplicable.

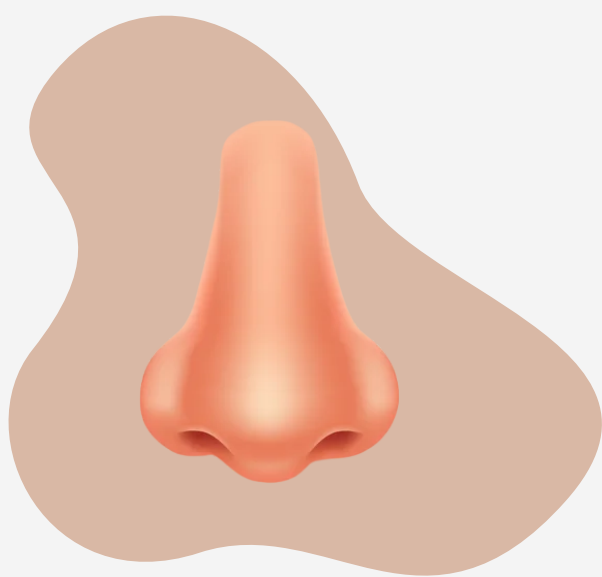

CLAIRTANGENCY

You receive information by physically touching an object, person, animal, or place. Often combined with one other Claire. How details of the information is processed is the secondary Claire.

CLAIR SALIENCE

Being able to smell something that 'isn't there'. Knowing which smells go together or being able to identify one component of a complex smell such as a recipe. Think of those that specialise, olfactory compositions such as Sommelier or Perfumer.

CLAIR GUSTANCE

Tasting anything in the absence of the physical food in your mouth. Chefs are great example of the intuitive gift of Claire Gustance.
