▼ I discovered we are ALL able to pick up feelings from others!

The fact is, the moods we feel, regardless if our own, feeds our individual fears – often of failure or success, making us sabotage the efforts of what we're striving for!

When you fully understand what affects your energy, you can increase your confidence, amplify your commitment, kick more goals and ultimately make your impact!

Many don't realise that mastering their empathy, is the key of being an empowered empath.

In the service industries, when we focus on our deep desires to help, we find ourselves energetically exhausted from people pleasing.

That's why I created a 3 part series of workshops and talks to help people at every stage of their Empathic Intelligence, it's the map that goes with the key to the treasure-trove of success. ▼

» WORKSHOP 1 LEADERSHIP EVOLUTION

UNAWARE ANCHORS: OUTSMART YOUR BRAIN FOR BUSINESS GROWTH

How to think, do and be a bolder leader.

Learn the gateways to appreciate how (and why) humans think and behave. And use that understanding to build a better relationship with your people to be more successful.

Learn how to manage external influences and discover how to manage your energy to improve emotional wellbeing and focus. Increase leadership empathic intelligence, resilience and the point of decision fatigue.

Learn how to focus on the right things to achieve your ambitions. Intuitive thinking doesn't mean you can't be logical. In fact, many intuitives are very logical in problem-solving. The difference is that intuitive thinking relies on a different set of criteria to find alternative strategies. I'll teach you all of this and so much more!

» WORKSHOP 2 MINDSET EVOLUTION

UNWAVERED RESILIENCE: NEURO KNOWLEDGE TO UNLOCK MIND- MASTERY

Learn how our mind processes our thoughts and how EGO stands in the way of our success.

Free yourself from the past, live in the present and create a mind-blowing future. You've been playing small and ignoring your intuition long enough. It's time to stop letting fear control your energy, activate your greatness and step into your power to live the life you were created to live.

Learn how to manage external influences that affect your emotions and energy. Discover how to manage your energy to improve your emotional wellbeing and leadership capabilities.

Create new beliefs, take your power back, and manifest your dreams. Uncover the primary reasons why so many of us are unable to focus, and find out how to develop your abilities to become a stronger empath.

» WORKSHOP 3 SPIRITUAL EVOLUTION

EMPOWERED SURRENDER: THE JOURNEY TO SAS

Embody your life's purpose as an Empath.

Empath-preneur-ship (EPS): Track your journey on the EPS map: Identify which stage of your entrepreneurial career you're in. Vital for growth to go from being the best kept secret to being the heralded healer you are meant to be.

ID-Entity - the 8 aspects of your super-conscious: It's not just subconscious or ego that we need to bring into alignment with your chosen life's endeavours. When you learn all 8 you will be able to check in with all aspects of self to make masterful choices during major transitions and when manifesting.

Dark empaths: Mirrors for our growth or shadows of society? Too many people are getting hurt emotionally and financially by narcissists and energy vampires. Learn to recognise and protect against them.
